YOU KNOW MY LOVE /Víš lásko/  
-----

There in my mind you find the rooms  
In every room there's sound  
In some you can hear those happy tunes  
And in other you fall down

You know my love I just try to look over  
World is so strange when I don't know my part  
I'd love to say something wise and I'm tryin'  
Words could be meant from my heart

Where - where to go what room to choose  
Help to find door for me  
Fear - there's fear that I could lose  
'Cause my eyes are blind to see

You know my love I just try to look over  
World is so strange when I don't know my part  
I'd love to say something wise and I'm tryin'  
Words could be meant from my heart

You know my love I just try to look over  
World is so strange when I don't know my part  
I'd love to say something wise and I'm tryin'  
Words could be meant from my heart

You know my love I just try to look over  
World is so strange when I don't know my part  
I'd love to say something wise and I'm tryin'  
Words could be meant...

SILENT SONG I SING /Tichá píseo/  
-----

Brand new day is commin' my way  
I'm slowly walkin'  
Pace by pace I follow the sun  
I hear it talkin'

My luck is here on Earth everywhere  
My hand I'm reachin'  
All that I long for and I hope for  
Lead me now

Silent song I sing  
When I feel what I want to feel  
Trees are just prayin' right for me  
And I know it's really real

Stormy weather is commin' just now and then  
My heart is cryin'  
But I know one day the sun will shine

And I'll be flyin'

And all those sunny days will be here again

And I'll be walkin'

And I will calmly dream my dream

Feel how I'm crawlin

Silent song I sing

When I feel what I want to feel

Trees are just prayin' right for me

And I know it's really real

Silent song I sing

When I feel what I want to feel

Trees are just prayin' right for me

And I know it's really real right for me

And I know it's really real

EVERY ONE LIES /Málo mi zná/  
-----

Childhood like magic horse dissappeared

Making no sound

Took away happy days with mam and daddy

Around

Memories of the first ball

World looked so handsome and tall

Then waving good-by and there it was

First crowded hall

Every one lies Every one lies who says

I'm reasing

When I say love when I say love

Love isn't easy

How I need success and fame

Want all men whisper my name

Walk high up in the skies thinking

Hey you're all the same

Every one lies Every one lies who says

I'm reasing

When I say love when I say love

Love is like breathing

I only seem to be mad

But something's got to be said

I shall be always like I shall be always like that

All right I'm simple and dreaming

But why should I change

Trying to see something say something

Is it so strange

Good luck and troubles take turns

I have some very good friends

With them I feel so fine walk and talk

Holding their hands

Every one lies Every one lies who says

I'm reasing

When I say love when I say love

Love isn't easy

How I need success and fame

Want all men whisper my name

Walk high up in the skies thinking

Hey you're all the same

Every one lies Every one lies who says

I'm reasing

When I say love when I say love

Love is like breathing

May be I'm mad now and then

Loving as much as I can

I can love only one I can love

Only one man

SAVE POETS OF LOVE /Básníci/  
-----

Writing poems of their life  
Something they cut like a knife  
In a while they caress you  
Make you - feelin' blue

And you can meet them now and then they are all over  
Eyes opened and the will to save the world  
They go and fight with the dark  
Tender fighters and biters  
They just come and go  
They're whiter then the snow  
Right now they change the world  
Belong to nice girls and lovin'  
They just come and go  
They're whiter than the snow  
Save the poets of love!

Writing poems in the streets  
They do know wjat livin' means  
They can feel what's bright what's dark  
They talk - do not bark  
Poets they know that fire is just fire

Investigating the ocean of their truth

They go and fight with the dark

Tender fighters and biters

They just come and go

They're whiter than tghe snow

Right now they change the world

Belong to nice girls and lovin'

They just come and go

They're whiter than the snow

Watch out and save and save

Save poets of love!

They go and fight with the dark

Tender fighters and biters

They just come and go

They're whiter than tghe snow

Right now they change the world

Belong to nice girls and lovin'

They just come and go

They're whiter than the snow

Watch out and save and save

Save poets of love!

Of love

SUMMER DAYS ARE GONE /Léto/

-----

It's fadin' out

Cold are the days

It's fadin' out

Split are our ways

Time of my tears

No tenderness

Gone are the stars

Comes loneliness

It's fadin' out

Days are so short

Summer is gone

I beg for more

Where is your smile

Left is the pain

Pain in my soul

Heart full of rain

Summer days are gone

When I used to be with you all days and nights

Summer days are gone

Your face seems to be far away - no more lights

Summer days are gone

And my heart full of memories is cryin' out

Summer days are gone

Don't you hear me my love I'm just callin' loud

Hearin' the songs

We used to know

Whispering the words

Won't let me go

My summer love

Where have you gone

It's cold outside

And I'm alone

Summer days are gone

When I used to be with you all days and nights

Summer days are gone

Your face seems to be far away - no more lights

Summer days are gone

And my heart full of memories is cryin' out

Summer days are gone

Don't you hear me my love I'm just callin' loud

Summer days are gone

Don't you hear me my love I'm just callin' loud

I FOLLOW THE BOYS

-----  
I'll follow the boys wherever they go  
I'll follow the boys cause in my heart I know  
I know that somewhere, somewhere along the way  
I'll find my love my own true love, some day

Then, there'll be no place too far no ocean too wide

Wherever he goes

I'll be right by his side.

So, I'll follow the boys and wait until the time till that boy that I'm following is mine

Then, there'll be no place too far no ocean too wide

Wherever he goes

I'll be right by his side.

So, I'll follow the boys and wait until the time till that boy that I'm following is mine

NOTHING NEW MAKES THE WORLD GO ROUND /Nic nového pod sluncem/  
-----

I'm drinkin' juice

And the night is so young

Smoke gets into my sleepy eyes

Singin'the blues

Juke-box can be a fun

Where are you with your lovin' smiles?

Hey, hold me, now hold me

I'm so easy to' cheer

Way out in the dark

Tere's something something I fear

Nothing new makes the world go round

Only love can move high mountains

Nothing new makes the world go round

And I love you in the same old way

Nothing new down on the ground

Only love can find clear fountains

Nothing new makes the world go round

Only love is here to stay

You're a little late

Maybe I came here soon

Lost in the easy-goin' crowd

Hey, keep your date

Come to dance to our tune

Give me your love and say it loud

Hey, hold me, now hold me

I'm so easy to' cheer

Way out in the dark

Tere's something something I fear

Nothing new makes the world go round

Only love can move high mountains

Nothing new makes the world go round

And I love you in the same old way

Nothing new down on the ground

Only love can find clear fountains

Nothing new makes the world go round

Only love is here to stay

Nothing new makes the world go round

Only love can move high mountains

Nothing new makes the world go round

And I love you in the same old way

Nothing new down on the ground

Only love can find clear fountains

Nothing new ...

FIGHT BY LOVIN' /Utoe láskou/  
-----

First

You can use so hard

Oh how strong you are

Kods know all around

Wall

There's the wall inside

Don't try to look oh so tough

When you love

Don't be shy

Fight by lovin'

And spread it all over

'Cause lovin' is your winnin' ball

Fight by lovin'

'Cause love's so much stronger than fist you will find after all

Fist

Can be opened now

And by magic

It's a lovin' palm

World

It's just longin' now

For some caressin' hands

On its side

Don't be shy

Fight by lovin'

And spread it all over

'Cause lovin' is your winnin' ball

Fight by lovin'

'Cause love's so much stronger than fist you will find after all

Fight by lovin'

And spread it all over

'Cause lovin' is your winnin' ball

Fight by lovin'

'Cause love's so much stronger than fist you will find after all

CLOSER NOW /Blízko nás/  
-----

Closer now

Like birds and bees

Right in the trees

I wanna fly high

Please let it be me I wanna feel sweet smells of lovin', oh

Closer now

My rufflin' hair

Fly in the air

My heart's beatin' fair

And it is just more desire for love, you know

Don't want to play with love

'Cause I'm longin' for more

Loves' not a game - I feel the heat

It's a strong feeling I can't stand it no more

My heart does open wide the door

Don't want to play with love

'Cause I'm longin' for more  
Loves' not a game - I feel the heat  
It's a strong feeling I can't stand it no more  
My heart does open wide the door

I'm feelin' the heat  
It's burning so deep  
I'm cryin' for more I need your love  
Closer now  
Closer now

TAKE MY HAND /Dej mi ruku/  
-----

You and me are brand - new in our lovin'  
Hearts do beat - like they are only one  
Take my hand and tell me that you're longin'  
Just hold me' cause there's now here to run  
C'mon take my hand and go  
Mile by mile we'll walk so slow  
Walk so slow  
Like a river's flow  
I won't say no  
  
Take my hand

And side by side

We'll walk the world

Our lovin' has to grow up don't you to know

Take my hand

And feel the heat here's a lot to meet

Instead of runnin' on please take it slow

Take it slow

Climbin' up that hill that is our lovin'

Stars above are shinin' oh so bright

Have to tell you that I need your huggin'

And I feel that you will treat me right

C'mon take my hand and go

Mile by mile we'll walk so slow

Walk so slow

Like a river's flow

I won't say no

Take my hand

And side by side

We'll walk the world

Our lovin' has to grow up don't you to know

Take my hand

And feel the heat here's a lot to meet

Instead of runnin' on please take it slow

Take my hand

And side by side

We'll walk the world

Our lovin' has to grow up don't you to know

Take my hand

And feel the heat here's a lot to meet

Instead of runnin' on please take it slow

Take it slow

MY BUTTERFLY /Bilásek/  
-----

My head spins around

When I start to drive my car

Time is runnin' fast

And it almost makes me cry

Really feel so down and out

Suddenly I hear the sound

Silent sound of butterfly

Two white wings slip through

They are slippin' through

They are slippin' through my mind

Butterly woke up and he's flyin' up and down

Windows all around he is trapped inside alone

Have no fear my butterfly

Sit right on my hand and calm down

I will surely let you out

You'll be flyin' high

Up there to the sky

To the meadows you long for

My butterfly

My little butterfly

Can't wait to set you free again

Hope you're feelin' just the same

My butterfly

My little butterfly

I know that it is not the end

I'd love to fly you understand

My little butterfly

You're so close to me more than you will ever know

Please do understand every now and then I'll go

I'll be flyin' oh so high

With you I can touch the sky

Silent sound of butterfly

Two white wings slip through

They are slippin' through

They are slippin' through my mind

My butterfly

My little butterfly

Can't wait to set you free again

Hope you're feelin' just the same

My butterfly

My little butterfly

I know that it is not the end

I'd love to fly you understand

My little butterfly

WHERE IS YOUR LOVIN' /Když láska schází /

-----

Everyday you keep in touch

You know all those heroes

One day it's just Pet Shop Boys

The other Depeche Mode

You're the one to dig Boy George

You know all about Prince

You're the friend of hitparades

But of nothing more

Why don't you hear the words that I say

Why don't you try to call me your baby

More than you know I don't want to play

'Cause I just miss your sweet tender touch

Hope you get to know

That I'm feelin' low

I can only ask

Where is your lovin'

You're the first to know the news

No one knows your sources

You seem that you never lose

You are No. 1

You should better quit that game

You keep playin on

You're the one that

I long for grows on and on

Why don't you hear the words that I say

Why don't you try to call me your baby

More than you know I don't want to play

'Cause I just miss your sweet tender touch

Hope you get to know

That I'm feelin' low

I can only ask

Where is your lovin'

Why don't you hear the words that I say

Why don't you try to call me your baby

Hope you get to know

That I'm feelin' low

I can only ask

Where is your lovin'

Where is your lovin'
